## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 and 2 are rejected under 35 U.S.C. 102(e) as being anticipated by Snider (US 6,394,619).

Regarding claim 1, Snider ('619) discloses an appliqué with light filters having a rotary knob 18, a front panel 20, thin faceplate 14, having a display portion 16, a holder 26, a light source 36 and figure 4 shows how the outer circumferential portion of the faceplate protrudes forward farther than a region of the holder bonded to the inner circumferential portion of the faceplate by a predetermined amount, along with the faceplate is pressed by a protruding portion 32 formed on the rear surface of the front panel.

Regarding claim 2, the protruding portion 32 of Snider is continuously formed around the circumferential edge of the cutout of the front panel 20.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John A. Ward whose telephone number is 571-272-2386. The examiner can normally be reached on Monday - Friday.
